# Agenda for the Program on Fraternal Economy of Integral and Sustainable Development

## Reform of the Global Financial Architecture

June 26-27, 2023

The June and October meetings of the Fraternal Economy Program will focus on financing sustainable development. The June meeting will emphasize financing through international development institutions (such as the Multilateral Development Banks and the IMF), while the October meeting will emphasize financing through private capital markets (such as the sovereign bond market). In both meetings, we will consider the scale, scope, and types of financing that are needed to build a fraternal economy that achieves the Sustainable Development Goals and the other globally agreed objectives regarding climate change, biodiversity conservation, and protection of the oceans.
