

# Fraternal Economy and the UN Finance for Development Summit

Program on The Fraternal Economy of Integral and Sustainable Development

The Fraternal Economy workshop will bring together global leaders of the UN system and developing and developed country governments, to discuss the ethical imperatives of the forthcoming UN Finance for Development Summit (June 30 – July 3, 2025).

As with the Fraternal Economy meeting on the [Summit of the Future](#), the Finance for Development Summit will permit a highly productive interaction between the Church, finance leaders, philosophers, and economists.
