

## Implementing the Fraternal Economy

Program on the Fraternal Economy of Integral and Sustainable Development

The October meeting will explore ways to take forward the messages of the Fraternal Economy.

We will review the main conclusions of our program then work together on four agenda items:

1. A new book to present the concepts of the Fraternal Economy to a global readership;
2. A new online course (MOOC), to be produced by the SDG Academy, and featuring members of the Fraternal Economy Program;
3. A new economics curriculum based on the Fraternal Economy, and including new textbooks at the introductory, intermediate and graduate levels;
4. A programmatic agenda to be pursued with business, religious, and political leaders.
